ISF U15 GYMNASIADE 2025

ISF ACADEMY

The ISF Academy is the educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organisation.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for students, physical education teachers, national school sport representatives, coaches and officials around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organisation of ISF events on-site, after the competition hours.

Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics.

► ATHLETES WORKSHOP

- SAFEGUARDING CHILDREN IN SPORT
- ANTIDOPING PREVENTION IN SPORT
- MENTAL HEALTH and WELL-BEING
- INJURY PREVENTION TO ATHLETIC PERFORMANCE
- TEAMBUILDING WORKSHOPS

The ISF's promotion of school sport by the ISF Academy through its international events also involves the transmission of knowledge through workshops on three themes that are dear to us all: **Safeguarding Children in Sport, Doping Prevention in Sport, Mental Health and Well-Being, Injury prevention to athletic performance and teambuilding workshops.**

ISF firmly believes that children must, through these workshops, develop the necessary inner resources to understand, identify, and react to negative behaviors such as racism, gender inequality, violence, and abuse, as well as to gain proper knowledge about doping and appropriately address mental health issues among athletes.

The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people so that they understand, but also so that they correctly apprehend this problem and are able to react to it.

Raising awareness and enabling participants to transfer their knowledge to their peers back home are also key elements of ISF. During this event, athletes from all over the world will attend several workshop sessions given by experts in the field, passing on their knowledge and experience through dedicated, constructive, and interactive pedagogy.

Therefore, **all athletes participating in ISF events are required to attend the ISF Academy's seminars.** These seminars are scheduled to **take place during the event,** in the afternoon or evening. Specific delegation time slots will be communicated during the event briefing.

► MASTER PROGRAMME SERBIA PE TEACHER

IFs experts delivering daily Workshop

The ISF Academy collaborates with various International Federations (IFs) to provide **On-site training for local PE teachers.** Experts from each IF conduct these training sessions, which are designed to ensure the best performance and physical and emotional safety for athletes. The goal of MASTER PE WORKSHOP program is to empower local PE teachers with advanced, sport-specific training that enhances their skills and knowledge. By collaborating with experts from various International Federations, the program ensures that teachers gain both theoretical and practical expertise tailored to each sport. This approach aims to optimize athletes' performance while prioritizing their physical and emotional safety, enabling teachers to foster a safe, supportive, and effective training environment.

***Participating organizations may vary depending on the circumstances.**
